

Crossover Reads

"The idea that books for and about children can only be of interest to children is not just absurd, it's offensive. [...] The crossover novel reinforces this. What better way to convince a child of the importance of her views, the validity of her feelings and concerns, than to say to her, I like your stories. They're interesting. They're good. And hey ... can I borrow that book when you're done?"

Jennifer Donnelly

Please note this list covers ages 12-18 and as a result some of the books will include more mature themes.
