## How to borrow audiobooks

Start browsing or search for a specific title, author, series or genre. You can also just browse by displaying "Most Popular" or "Recently Added" or "Newly Published". You can also narrow it down according to availability, audience and category.

You can listen to a sample of the audiobook to decide whether you would like to borrow it. In order to borrow it, just click "Borrow". The audiobook will be on loan to you for 14 days (2 weeks).

If the book you want to borrow is not available, you will have the option to reserve it, and you will be notified, by email or notification on the app, when the book is ready for you.

You can also make lists of books that you want to read later - just click "Add to Saved" ("Save for Later" on the desktop version).
